EXPERIENCE

Scaleorange Technologies Pvt Ltd	Hyderabad, India
PERN STACK Intern	July 2024 - April 2025
<ul style="list-style-type: none">Developed a responsive and scalable web application using the PERN stack (PostgreSQL, Express, React, Node.js) for efficient data management and user interaction.Designed and implemented a user-friendly Android application using React Native to enhance mobile accessibility.Collaborated with the team to optimize application performance and ensure seamless integration across platforms.Gained hands-on experience in full-stack development, debugging, and deployment in real-world projects.	
Yes Lorvens Solutions Pvt Ltd	Hyderabad, India
Full Stack & App Developer	Sept 2025 - Present
<ul style="list-style-type: none">Developing responsive web applications using React,Tailwind CSS.Building cross-platform Android applications with React Native, focusing on performance and user experience.Collaborating with teams to deliver scalable and impactful solutions.	

PROJECTS

BLOGPOSTING MULTIMEDIA | PERN STACK

- Developed a BlogPosting Multimedia project using React, Node.js, Express, and PostgreSQL, enabling users to create and submit blogs through an interactive interface.
- Implemented a role-based workflow where admins review submitted blogs, accepting or rejecting them based on content safety.
- Designed a notification system to inform users about the status of their blogs, including rejection reasons when applicable.

- Ensured smooth backend functionality with efficient API integration and database management for seamless blog posting and review.

CATERORANGE - Web Application | PERN STACK

- Contributed to the development of CaterOrange, a food ordering app for corporate and event clients, by building the corporate section's frontend and backend.
- Designed and integrated key features, including the home page, cart, and orders page, for a seamless user experience.
- Implemented a date picker for selecting bulk order dates, enabling efficient ordering for corporate clients.
- Integrated Redis to optimize cart functionality for fast and efficient data management during the ordering process..

CATERORANGE - Android Application | REACT-NATIVE

- Contributed to the development of the CaterOrange Android app, a food ordering platform for corporate and event clients.
- Built the frontend for the event cart and integrated corporate and event pages for a unified user experience. efficient cart data management using Redis for fast, real-time data access and improved app performance.
- Worked on integrating key features for seamless ordering and data flow between event and corporate sections.

EDUREACH - Android Application | REACT-NATIVE

- Developed the EduReach School Management System mobile app using React Native and Tailwind, providing a seamless, responsive, and intuitive user interface.
- Implemented role-based login functionality for Admins, Teachers, Students, Parents, and Librarians, ensuring secure and personalized access to app features.
- Built and integrated key modules including attendance tracking, fee management, and parent-teacher connectivity for efficient school operations.
- Connected the frontend to the backend for smooth data flow and real-time updates, enabling effortless management of school activities through just a few clicks.
- Optimized user experience for all stakeholders, allowing easy monitoring and interaction across classes, events, and administrative tasks.

ORGANIZATION

- **Training and Placement Cell - RGUKT Srikakulam** | Student Co-ordinator
- **Sahaaya Mithra Helping Organization-RGUKT Srikakulam** | Joint Secretary

DECLARATION

I, Borusu Harshitha Satya Sri Ramya, hereby certify that the information contained in my resume is true and accurate.
